Bradshaw Medical Issued Two New Patents & Grand Opening Scheduled

8/25/2010 Kenosha, WI: Bradshaw Medical, Inc. (BMI) announced earlier today that they were issued patents US D604,584 S for their unique Spinal Rod Cutter and patent US 7,740,249 B1 for their Zero-Play Adapters used on Ratcheting, Non-Ratcheting, Torque-Limiting and Comfort-Grip® Handles. Both devices were developed by Dr. Hua Gao, Vice President of Research and Development. "The reason we have grown to be such a solid company in today's competitive market is that we keep coming out with new technology and innovations. I always strive to make our product the best in the market no matter what I design. Vision is very important to me while in the design process and it is very exciting when you see your inventions are accepted and are gaining popularity with customers. We have the best torque limiting and ratcheting devices in the world and I will continue to work hard to keep quality and innovation my top priority," stated Dr. Hua Gao, V.P. Research and Development.

In addition, Bradshaw Medical has set a date for the grand opening ceremony for their new 30,000 sq ft state-of-the-art design and manufacturing facility located in the Kenosha Business Park. The event will be held at the company's new address, 10325 58th Place, on Monday September 13th, 2010. There will be a ribbon cutting ceremony, speeches, tours, beverages and hors d'oeuvres. If you would like to attend this event please contact Rebecca (see below).

BMI is an ISO 13485 certified and an FDA registered supplier offering a comprehensive line of precision handheld instruments. Located in the Kenosha Business Park, they serve the orthopedic community and specialize in developing unique and innovative products for leading Orthopedic OEM's. BMI began operations in February 2006 and has since grown to over 100 employees serving the spinal and orthopedic industry's instrumentation needs.
